DOD MEDICAL EXAMINATION REVIEW BOARD (DODMERB) FARNSWORTH LANTERN AND RED/GREEN COLOR VISION TESTS

Form Approved

OMB No. 0704-0396

Expires Aug 31, 2003

The public reporting burden for this collection of information is estimated to average 20 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing the burden, to Department of Defense, Washington Headquarters Services, Directorate for Information Operations and Reports (0704-0396), 1215 Jefferson Davis Highway, Suite 1204, Arlington, VA 22202-4302. Respondents should be aware that notwithstanding any other provision of law, no person shall be subject to any penalty for failing to comply with a collection of information if it does not display a currently valid OMB control number.

PLEASE DO NOT RETURN YOUR FORM TO THE ABOVE ADDRESS. RETURN COMPLETED FORM TO DODMERB/DR, 8034 EDGERTON DRIVE, SUITE 132, USAF ACADEMY CO 80840-2200.

FARNSWORTH LANTERN AND RED/GREEN COLOR VISION TESTS - INSTRUCTIONS

PREPARATION FOR TESTING

- 1. Give the test in a normally lighted room; screen from glare; exclude sunlight. Examinee should not face the source of room illumination.
- 2. Only one person should be tested at a time. (Others shall not be allowed to watch.)
- 3. Station examinee eight feet from lantern.
- 4. If examinee ordinarily wears contact lenses or glasses for distance, they should be worn. Color correcting lenses, if worn, <u>must be removed</u> prior to testing.

ADMINISTRATION AND SCORING

- 1. Instruct examinee," The lights you will see in this lantern are either red, green, or white. They look like signal lights at a distance. Two lights are presented at a time in any combination. Call out the colors as soon as you see them, naming first the color at the top and then the color at the bottom. Remember, only three colors red, green, and white. Name which light color combination exists, top one first."
- 2. Turn knob at top of lantern to charge lights; depress button in center of knob to expose lights. Maintain regular timing of about two seconds per light.
- 3. Expose the lights in random order starting with a R/G or G/R combination, continuing until each of the nine combinations has been exposed.
- 4. If no errors are made on this first run of nine pairs of lights, examinee is passed.
- 5. If any errors are made on this first run, give two more complete runs.

- 6. Average the errors of these last two runs. If an average of more than one error per run is made, examinee is failed. If an average of one, or less than one error per run is made, examinee is passed.
- 7. An error is considered the miscalling of one or both of a pair of lights; if an examinee changes his/her response before the next light is presented, record the second response only.
- 8. If an examinee says "yellow," "pink," etc., you should say, "There are only three colors red, green, and white."
- 9. If an examinee takes over 3 seconds to respond, you should say, "As soon as you see the lights, call them."
- 10. Do not discuss passing/failing scores with applicant. Under no circumstances will an applicant receive more than 3 total runs.

6.	REMARKS	(Attach	additional	pages i	f necessary.)
